AREA63 / PRACTICAL BUSINESS AUTOMATION

Bespoke solutions within your existing cost centres

Remove repetitive administration from your working day.
Time savings begin when your tested, accepted solution goes live.

Savings from Day One.

area63.co.uk/pitch/ | Donella | team@area63.co.uk

DEFINED STEPS. CHECKED RESULTS.

A program with rules.
A result we can test.

Structured inputs. Allowed actions. Visible exceptions.
Where AI coordinates, its tools and actions are constrained.

We agree the result and prove the saving.

Checks reduce errors; no software is infallible. Test real cases and agree the checks.
Ordinary rules-based jobs can run without an AI account.

WHAT YOUR BUSINESS GETS BACK

An hour a day.
£3,931.33 of staff cost.

Your first-year benefit: £1,965.67. Year two onward: £3,931.33 a year.
£3,050.40 wages + £368.15 holiday allocation + £512.78 employer NI.

£17,691.01 of value over five years.

£12.71/hour; 20 days/month; 40 paid hours/week; 5.6 holiday weeks; £0 unused NI allowance.
PAYE £683.71 and employee NI £273.48 are within gross pay, not extra business savings.
Same saving/rates; £0 running costs. Illustrative capacity value; cash savings depend on payroll.

OUR OFFER

No agreed saving?
No charge.

Agree the acceptance test and net saving before payment.
Sign the completion contract; payments follow the accepted result.

If we cannot deliver it, we walk away without charging.

Licensed software. Example price £1,965.67 over 12 months. Support, services and VAT agreed.
